

CHARACTERISTICS

This exceptional range of energy-efficient external flood lights features excellent thermal management via unique heat-dissipating fins to maintain longevity. The lens design ensures efficient light direction and dispersal delivering smooth, uniform illumination. Optional PIR activation can also bring extra security to selected exterior access routes to your property.

TECHNICAL SPECIFICATION

- 1 Watt delivers 120 Lumens
 - Fully Dimmable
 - 220-240V input voltage
 - 50,000 hour life
 - Good CRI of 85+
 - -20°C to +40°C
 - Cast aluminium housing
 - 30W to 150W output*
 - Can be PIR activated for added security
 - Fully Certified to CSL
 - Exceptional 5-Year Warranty
- 30W; 50W; 80W; 100W & 150W versions available.
